

# Export Visual Check

Premium segment margin recovery plan generated for PDF QA

## PROBLEM

**Premium segment revenue quality is deteriorating while customer traffic rises.**

- Blanket promotions are eroding margin recovery.
- Category adjacency gaps reduce attachment purchases by 14 percent.
- Leadership should target offers and repair assortment in high traffic stores.

## SOLUTION

# Stabilize the case with targeted recovery actions.

Translate the problem into a tighter response plan with explicit actions, focused offers, and measurable outcome tracking.

- Tighten promotion guardrails around margin recovery.
- Repair the highest-impact assortment and adjacency gaps.
- Track impact with branch-level quality and conversion metrics.

# Ready for review and export.

Review the graph, confirm branch priorities, and export the next revision.
